DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Babij (U.S. Patent number 4,588,993).

Regarding claim 1, Babij discloses an electromagnetic wave measuring apparatus (Fig. 6) for measuring an electromagnetic wave radiated from an antenna to be measured, comprising:

a holder operable to hold said antenna to be measured; and

a plurality of probe antennas (E1-E3) operable to detect said electromagnetic wave radiated from said antenna to be measured Fig. 6, col. 3, lines 5-50, col. 4, lines 30-60).

Allowable Subject Matter

3. Claims 2-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

None of the prior art teaches the electromagnetic wave measuring apparatus

wherein each of the plurality of probe antennas has the shielded loop probe for measuring the magnetic field in the electromagnetic wave, wherein the plurality of probe antennas are arranged on the circular arc having the center substantially at the holder.

Priority

4. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
